Course description - Including aims & objectives Whether you are an absolute beginner or know a smattering of Spanish but would like to feel more confident and competent at understanding and expressing yourself, this course will enable you to exchange personal information and to be able to deal with situations typical of a visit to Spain or other Spanish-speaking countries.	
Learning outcomes: Confidence in your ability to understand and communicate key information in Spanish, and increased awareness of Spanish and Latin American culture. Teaching and learning methods used: A variety of resources will be used to introduce and contextualise new language to help you communicate in everyday situations; these include video, audio clips and short texts.	
How Progress & Success will be recorded: Each lesson I will use a variety of informal techniques for checking & understanding, without putting you on the spot! I encourage members of the group to support one another and aim to develop a sense of camaraderie & fun within the group. As the course progresses we will	

regularly use areas of language previously covered in new contexts. You will be asked to complete an individual learning plan at intervals to monitor progress towards your personal (and the group's collective) goals throughout the course.

Any further next steps

Please make a list of:

- any past experience you have of using Spanish,
- your personal motives for learning the language, and
- what you hope to achieve from this course
