Course description - Including aims & objectives

The aim of this course is to build on prior technical knowledge and focus on building individual creative confidence through the lens. Using set tasks and weekly assignments the emphasis will be on exploring the potential of photography to improve each learner's skill and photographic style.

Learning outcomes:

- Build upon prior knowledge and gain confidence with creative and technical techniques
- Improve photo editing skills
- Develop knowledge into the history and practice of famous photographers
- Unlock creative potential and develop personal style

Teaching and learning methods: Presentations, practical tasks, class discussions and weekly photographic assignments with critique.

How Progress & Success will be recorded: By progressive technical and creative assignments. Student images posted to a closed Facebook group for tutor and peer comment. Portfolio of images created by end of course showing various techniques. Learners are also required to fill out an Individual Learning Plan to record their progress.
