

9<sup>th</sup> January 2018

Dear Parent/Carer

### **Geography Revision Clinics**

As you are already aware, the biggest difference that your son / daughter can make to their GCSE grade is revision. In addition to offering CGP revision guides and setting homework in Homework Booklets (that become revision guides) we are offering revision clinics twice a week from Tuesday 16<sup>th</sup> January. Tuesday's revision clinics will be held in D3 at lunchtime with Mr Burke and will focus on Paper 1 (Physical Geography), Thursday's revision clinics will be held in D1 with Ms Hill and will focus on Paper 2 (Human Geography).

A register of students attending will be kept by both teachers, we will email you to let you know if your son / daughter has attended the sessions. If you do not get an email from the school, please assume that they did not attend.

Revision is extremely important; students have a lot to remember for their Geography exams! Please encourage your son / daughter to revise regularly at home using flash cards, mind maps, poster etc. Completing homework is equally important, at the moment there is a significant number of students not completing it to the best of their ability, or at all! The homework booklets are designed to reinforce what we have learnt in lesson.

Thank you for your support.

Yours faithfully

Ms E Hill  
Subject Leader of Geography
