Dear Parent/Carer

### Science – Revision Books

Many of you have been requesting the opportunity to purchase revision guides directly from the school. The Science department are offering the CGP revision guide at a reduced price that are very good, however, we are aware that some of the students prefer the layout and presentation in the revision guide produced by Pearson. As the school can purchase the book at 50% off the retail price, I am willing to place an order for those students who would like the alternative book. Pearson also offer a supporting workbook that the students can work through to support and help focus their revision sessions.

These books are not compulsory, but would be helpful for the students especially when working independently outside of their lessons.

If you would like to purchase any of the revision guides, please complete the slip below and return it to the finance office before Friday 9<sup>th</sup> March 2018, when we will be placing the order. Please note, if your child is eligible for pupil premium support, then they will automatically be provided with relevant revision books.

The book codes are:
