Dear Parent/Carer

## Yr 12 Hair and Beauty

For those of you that haven't met me yet, my name is Julie Constable and I am pleased to be supporting your daughter at Ely College within the hair and beauty department in the absence of Mrs Norris. I have extensive experience and knowledge of the hair and beauty industry and have been teaching for over 20 years in both schools and Further Education Colleges.

My reasons for contacting you are to give an update of what is happening in Year 12 Hair and Beauty, and to let you know that if you have any concerns or queries with regard to your daughter's course to contact me.

We have recently finished some very impressive images based on a theme, to meet the course requirements. This required lots of planning and creative thinking over a period of 6 weeks culminating in some amazing results, with lots of attention to detail. This was a busy and exciting part of the course.

We are now working to complete all outstanding observations, and have organised a 'pamper day' for external clients for a small fee. Lots of preparation works have been carried out to get the salons in pristine condition for our new clients. Your daughter will carry out a conditioning treatment including wash and blow dry in the morning, followed by afternoon tea, with make-up and mini manicure in the afternoon. We hope this proves to be a great success and to run many more in the future to try to establish a realistic working environment.

Once these assessments are complete we will progress to the next step of your daughter's hair and beauty journey. This will not be a combined qualification as before, but industry specific, so she will be able to choose the pathway that best meets her needs. It may be that your daughter is able to achieve multiple qualifications and study them side by side.

I hope this information is helpful.

Yours faithfully

*J. Constable*
