

17th July 2018

Dear Parent/Carer

Year 9 into 10 Setting

I am writing to inform you of set changes which will occur for year 10 in September 2018/2019. As a result of adding an extra English group to year 10, we have had to re-work the current setting; this will result in slightly smaller class sizes going forward.

It has been necessary to re-visit our setting for English and all groups will have some changes for September, meaning that your child may not have the same English teacher next year. The new setting decisions have been made through the consideration of students' outcomes in the year 9 mock exams, end of course GCSE teacher predictions and the students' target grades (based on KS2 outcomes).

These decision has been undertaken with the aim of offering the best support, interventions, and challenge to all of our students on their path to GCSEs. Every effort has been made to ensure that students will be in a group which best supports their progress and achievement.

Students will receive their new sets when they are issued with their timetables in September.

Please do not hesitate to contact me with any questions or concerns arising from these changes.

Yours faithfully

Mrs N Burke
