Dear

Please find in this pack a few items to help you on the way with the all-important revision you will need to do to prepare yourself for the upcoming exams.

We know this time in your school career is a tricky one, often overwhelming and we are all too aware of the blood, sweat and tears that will be involved in the next few months of hard work. If there is anything we can do to help, please don't hesitate to speak to us – we are all here to help.

The exams you are preparing for are important, you know that. We hope you take time in the coming terms to remember how important **you** are. These exams are a measure of how much you have learnt in your GCSE's, they are a measure of how good you are at remembering, using and recalling facts, figures and ideas. We want you to do your very best in them.

However, please remember this. They are not, and never will be, a measure of you as a whole person. They won't measure how lovely you are, how kind you are, what a brilliant friend you can be. They are stepping stones to the next stage of your life – wherever that may take you. Keep your perspective, keep your focus but most of all keep yourself well looked after; plenty of sleep, a healthy diet and time to relax are important too.

It will be the Summer before you know it!

With all best wishes for your exams and the future.

Yours sincerely
