Dear Parent/Carer

Tassomai

We are launching a new online platform called Tassomai in science which should help our students increase their confidence in science. This resource tailors the questions depending on the students' answers. For best results we are recommending students complete 10 minutes of Tassomai about 4 times a week. This will help them build their recall and knowledge across the different areas of science.

Your child's science teacher will be putting a post onto Teams with instructions on how to join the class and use Tassomai. Please tell them to look out for it and to let their teacher know if they have any problems.

Many thanks for your support.

Yours faithfully

Mrs S Manning
