

7th March 2023

Dear Parent/Carer

One-way System Around College

We are introducing a one-way system around the Franklin (Science) corridor and the Bedford (Maths and English) corridor. The reason for this is that whilst the students' conduct around the college is exemplary there are certain times of the college day when the vast majority of students are moving at the same time. Therefore, in order to spread out this movement along the Bedford and Franklin corridors and reduce the flow of students moving in opposite directions, we are testing a one-way system.

Details of this system can be found on this link:

<https://www.elycollege.com/page/?title=One+way+system&pid=354> We have also used tutor time this week to guide the students around the layout so that they understand the rationale and the route they need to take.

The one-way system will come into effect from Monday 13th March, and we will review its effectiveness through a combination of duty staff feedback and student voice feedback.

Yours faithfully

Simon Warburton
Principal
