

Welcome to day 3!

National Careers Week

NCW

Labour Market Information (LMI)

Labour Market Information is qualitative or quantitative facts or analysis about the past, present or future labour market (job market)

WHAT CAN LMI TELL US?

- The skills and qualifications required for career pathways and progression routes in the local labour market
- Key employment sectors— employers, jobs, salaries and trends i.e. skill shortages, growth areas
- Local job opportunities, who is hiring and firing?
- What types of jobs are increasing or decreasing?
- Apprenticeships and training— which sectors, numbers of apprenticeships in the local area, vacancies
- Further Education—course, qualifications, entry requirements, destinations, costs
- Higher Education—graduate destinations, skills and employment rates, degree apprenticeships
