

8th June 2023

Dear Parents/Carers

Year 8 English

We are delighted to inform you that in the final half term of the year, your child will work towards their Bronze Arts Award in their English lessons. The Bronze Arts Award is a Level One Qualification that allows students to develop their artistic abilities and research and communication skills.

Students will complete a module called 'Artists as Writers' during their English lessons. In this module, students will have the opportunity to research the career and life of a writer, experience an arts event and review it, develop their creative writing, and teach others about a skill they have learned.

Students will create a portfolio during the module to showcase their learning journey. These portfolios will be assessed at the end of the summer term by an external moderator, and if successful, your child will be awarded their Arts Award qualification.

We hope that your child enjoys this exciting opportunity.

Yours faithfully

Heather Clark-Hope
