parents/students/staff/governors

The progress that all students make in 2023 will be significantly better than the national average. The attainment and progress gap between student groups will decrease year on year. More than 50% of Ely College students will complete courses at Bishop Laney Sixth Form.

In 2023, Ely College will be viewed as an exceptional school. Our Ely Expects framework for staff and students will set out clearly our vision of excellence in the classroom and our expectations of effective scholarly habits.

In 2023 Ely College will have a reputation for placing the wellbeing of staff and students at the heart of all our actions. Our behaviour and rewards system will promote respect and courteous interactions. All staff will have access to purposeful training and development.

Our PLEDGES and PLEDGES+ programme will expand so that all students have the opportunity to engage and benefit from personal development and cultural enrichment. We will exploit online technologies to open up our college to the World.

By 2023 Ely College will have an environment that embodies our values. Learning spaces will be engaging, staff will be able to draw upon effective technology and resources.
