Dear Parent/Carer

I am writing to remind you about the science department revision sessions taking place during Session 6 this half term. These sessions will continue to be held on a Wednesday after school.

These sessions will revise content already covered in the GCSE course so far, together with providing the opportunity to complete some practise exam questions with the support of teacher guidance. There will be separate sessions for students sitting the higher paper and the foundation paper, to enable the content to be tailored to the different exams.
