

17th June 2025

Dear Parent/Carer

I want to reassure you that we are keeping a close eye on the weather forecasts for the week ahead. With the warmer temperatures returning for the weekend, I want to remind everyone what the current expectations are for uniform. As we are now in summer uniform there is no expectation for students to wear their blazer or bring it to college with them. Students are permitted to wear tailored shorts instead of trousers although we do ask parents to remind their children to make sure that skirts are not being rolled up at the waist.

The temperatures forecast for next week are not at the levels we have had previously where we have invited students to wear PE kit. Therefore, the white shirt is more effective at keeping students cooler. Students are still expected to wear ties and, if the temperatures do become uncomfortable during the day, we will review whether the ties being removed would cool students further.

Can I please remind you to make sure that students have sun cream on before they leave for school and have a water bottle that they can fill during their breaks. Students will not be permitted to leave lessons to fill their water bottles so students should be encouraged to manage their time effectively to replenish water during their free time.

Yours faithfully

Simon Warburton
Principal
